

A guide to our Community School Tracks

Our community school tracks are open to the public during non-school hours. All of the high school tracks (not included below) are the traditional 4 laps to the mile and have a rubberized surface.

Agnor-Hurt Elementary- Located off Rio Road on Berkmar Drive, this looped track is *5 laps* to the mile.

Buford Middle- Located off Cherry Avenue, behind the Boys and Girls Club, this three-laned, paved oval is *5 laps* to the mile.

Burley Middle- Located on Rose Hill Drive this is one of the newest additions to our local track circuit. It's a bit tricky as you must run *6 laps in lane three* to get your full mile on this perfectly shaped hard surfaced oval.

Greenbrier Elementary- This is truly a community track as it is comfortably nestled right in the middle of the Greenbrier neighborhood. *Five and a half laps* on this crushed graveled surface will give you a full mile.

Henley/Brownsville- Located across from Western Albemarle High School on 250 west in Crozet (just one light before Old Trail), this crushed gravel path is the trickiest of all for keeping track of your mile because after *5 full laps you are 70 yards beyond the mile*.

Hollymead/Sutherland- Located off 29 North in the heart of the the Hollymead neighborhood, this snake-like, winding path is another tricky circuit. One lap around this paved path is about 1500', so *three and a half laps* will give you a full mile.

Jack Jouett Middle- Located off Lambs Road (off Hydraulic behind Albemarle High School) this is one of the most private feeling of all the tracks as it is tucked well behind the school. It is the only track that you access by way of a wooded path. *Three laps* around this winding crushed gravel path will give you a mile.

Meriwether Lewis Elementary- Located off Owensville Road in Ivy, this winding, paved track is one of the few on the local circuit that is actually *4 laps* to the mile. It is also one of the only ones to feature a hill, as almost all of the other tracks are perfectly flat!

Murray Elementary - Located on Morgantown Road in Ivy (off 250 west) this paved track is *5 laps* to the mile.

Walton Middle- Located off Route 20 South about half way between Charlottesville and Scottsville. Like a high school track, this perfectly shaped paved flat oval is *4 laps* to the mile.
